EDUCATION

De Anza College — Cupertino, CA
Associate's in Mathematics and Computer Science — *Sep. 2023 – June 2026*

EXPERIENCE

Information Technology Intern — February 2025 – May 2025
Limbak Labor Group — *Baku, Azerbaijan*

- Provided technical support for hospital staff, troubleshooting hardware, software, and network issues to ensure minimal downtime
- Assisted with maintenance and deployment of computers, printers, and medical-adjacent IT equipment
- Collaborated with the IT team to install updates, patches, and antivirus software across hospital systems

Freelance Web Dev — Sep. 2024 – Present
Upwork — *Cupertino, CA*

- Developed custom websites and web applications using HTML, CSS, JavaScript, and modern frameworks, tailored to client requirements.
- Integrated APIs, third-party services, and CMS platforms to enhance functionality and performance.
- Improved site performance, responsiveness, and SEO for client websites, resulting in higher engagement and conversions.

Retail Sales Associate — Oct. 2023 – March 2024
Abercrombie & Fitch Co — *San Jose, CA*

- Delivered high-quality customer service in a fast-paced retail environment, driving positive shopping experiences and brand loyalty.
- Assisted customers with product selection, styling advice, and fit recommendations to meet individual needs.

PROJECTS

Prediction Market Trading Bot | *Python, RSA-PSS, Kalshi API, REST API* — Oct. 2025 – Present

- Built an automated trading bot that monitors real-time prediction markets and executes trades on short horizon (15-minute) price movements using probabilistic edge detection.
- Designed a continuous market scanning engine that evaluates live order books, implied probabilities, and spreads to identify positive expected value opportunities.
- Implemented API-driven trade execution with secure key management, environment configuration, and error handling for failed authentication and network interruptions.

Personal Portfolio | *Next.js, TypeScript, TailwindCSS, Framer Motion, React, Vercel, SEO* — June 2025 – Present

- Built a modern, responsive personal portfolio with Next.js 14, TypeScript, and TailwindCSS, incorporating dark mode, animated UI interactions, SEO best practices, and performance optimized deployment on Vercel.

BeanThere - Full Stack Web Dev| *Next.js, TypeScript, TailwindCSS, Firebase, React, Maps API* June 2025 – Present

- Built BeanThere, a full-stack web application that recommends nearby coffee shops using geolocation, map APIs, and user preference signals, integrating real-time place data with a scalable React/Next.js frontend and cloud-hosted backend.

TECHNICAL SKILLS

Languages: Java, Python, C/C++, SQL (Postgres), JavaScript, HTML/CSS, R
Frameworks: React, Node.js, Flask, JUnit, WordPress, Material-UI, FastAPI
Developer Tools: Git, Docker, TravisCI, Google Cloud Platform, VS Code, Visual Studio, PyCharm, IntelliJ, Eclipse
Libraries: pandas, NumPy, Matplotlib
